A close-up photograph of hands working on a wooden object, possibly a watch case, with a metal component visible on the right. The image is dark and moody, with the hands and the object being worked on being the primary focus.

EXCELLENT QUALITY

In Search of Perfection:

What is quality...
What makes a perfect life...
What defines a standard of
excellence...

Life breathes a soul-searching
perfection, which can only be
fulfilled through alignment
of space and time with each
element.

ELEMENTS OF LIFE

CHAPTER 2

EXPLORING THE NATURAL FORCES THAT SHAPE OUR SPACES AND EMOTIONS

Elements Shape *Our Existence*

Rooted in the ancient philosophy of the five classical elements – **Wood, Metal, Fire, Water, and Earth**— this concept reimagines living spaces as environments of balance, beauty, and sensory connection.

Each element represents not just a material or form, but a feeling, a function, and a flow.

Wood evokes growth, vitality, and organic warmth. It manifests in natural textures, plant life, and artisanal craftsmanship that breathe life into every corner.

Metal brings structure, clarity, and strength. Clean lines, reflective surfaces, and thoughtful details convey refinement and resilience.

Fire ignites passion and energy. Through light, color, and warmth, it creates focal points and emotional intensity.

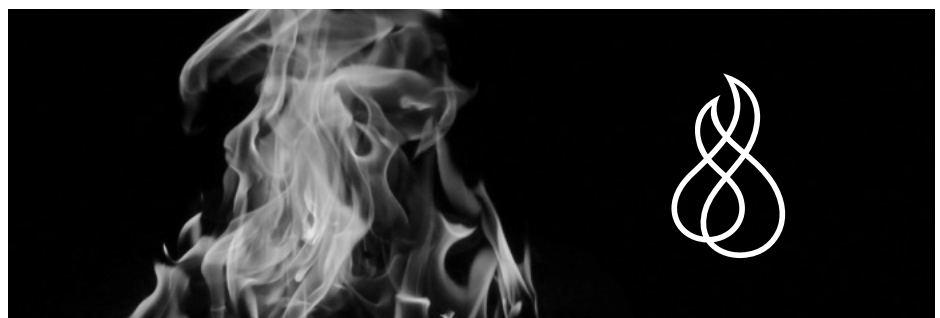

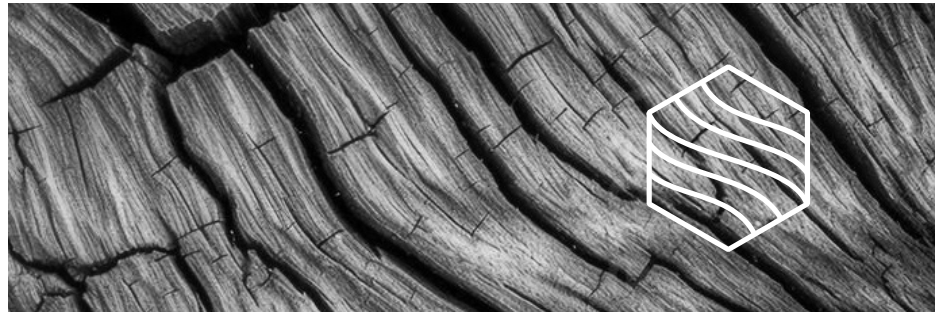

Water introduces calm, fluidity, and reflection. Whether through design motifs, flowing layouts, or water features, it soothes and connects.

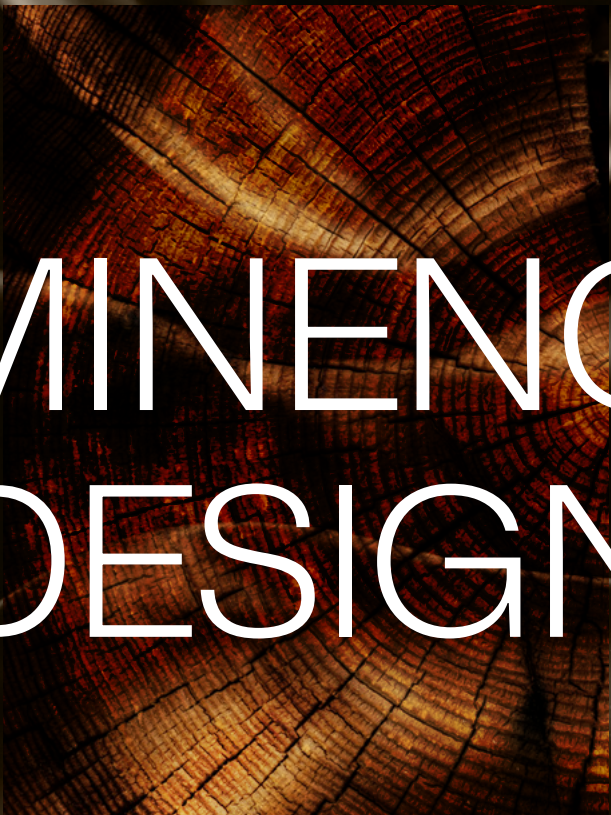

Earth grounds the space, offering stability, texture, and natural richness. Stone, clay, and earthen tones create a rooted, peaceful foundation.

Together, these elements form the Elementi Domus— a holistic home concept where nature and design are inseparably linked.

Each space is curated not only for functionality and aesthetics but also for emotional resonance and elemental balance, offering a sanctuary that aligns with the rhythms of life.

This is Elementi Domus.
The sixth elements.
Where all others become one.

EMINENCE DESIGN

CHAPTER 3

Our Background Story & Brand Vision

Founded with a passion for refined living, Elementi Domus was born from a desire to harmonize design, function, and soul within the home.

With roots grounded in architectural principles and Italian design sensibilities, the brand was established by collaboration with Lorenzo Toncelli and the craftsmanship skill from Indonesia who believe that every piece of furniture should not only serve a purpose — but tells a story.

Brand vision:

The preferred choice for your high-end furniture needs by providing tasteful exquisite design, first-class product quality and unrivalled value to enrich decorating experience.

Lorenzo Toncelli

Principal Designer

Success By *Collaboration With Experts*

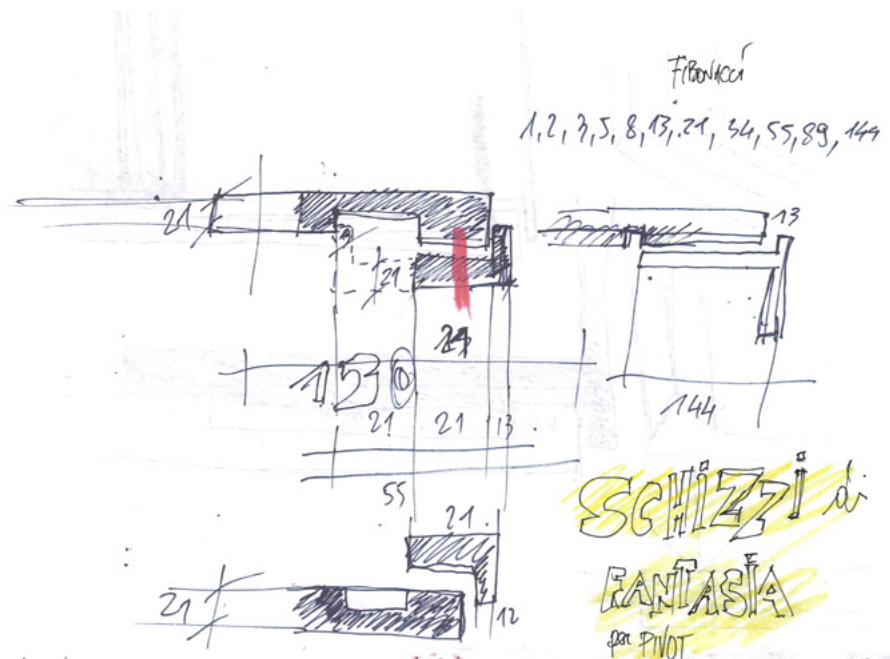

**Elementi Domus is not merely
a product, but an inspiration and
a concept designed to answer
your needs.”**

– Lorenzo Toncelli

As the principal designer of Elementi Domus, Lorenzo Toncelli holds a deep admiration for the skill and expertise of Indonesian artisans. Indonesia is renowned for its rich traditional culture, which is deeply rooted in exceptional craftsmanship.

With over 30 years of experience in the furniture system sector, Lorenzo Toncelli leverages his extensive expertise to implement a design philosophy that merges Italian design and technology with the masterful craftsmanship of Indonesian workers.

This powerful combination forms the very essence of Elementi Domus. “Where Tradition Meets Innovation” is the guiding principle evident in every product designed by Lorenzo Toncelli.

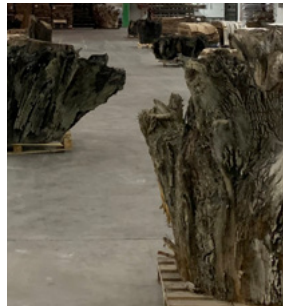

Golden Ratio Design

The Golden Ratio is a shortcut to proportions for innately pleasing structure. A well calculated aesthetic of nature, art, architecture, and design.

Trusted as a proven formula to bring balance and harmony in crafting, creating and designing products, The Golden Ratio is a structural device based on the patterns of nature.

The “*Kitchen*” Behind Our Success

Nestled in Semarang, Central Java, our workshop is where tradition meets innovation. We work closely with a dedicated team of local engineers many of whom have inherited their skills through generations of artisanal heritage.

While we import premium materials and cutting-edge technology from Italy, all of our products are meticulously crafted in our own factory in Indonesia. This fusion of Italian design excellence and Indonesian craftsmanship allows us to create bespoke kitchen systems and wardrobes that are both refined in aesthetic and superior in quality.

Strict quality control

Every piece undergoes rigorous evaluation, ensuring that the warmth of handcraftsmanship meets the refined finish and performance expectations of Italian luxury.

Design translation

Under the guidance of Lorenzo Toncelli, global design concepts are carefully adapted to local capabilities, ensuring the final result is both globally relevant and culturally respectful.

EXQUISITE LIVING

Where elegance
meets everyday joy

Rest & relax
at your luxury

PRODUCT IN DETAILS

KITCHEN SERIES

AVANI - EILA - UMA - BORA - MULA

AVANI

Avani is a name of Sanskrit origin that means "earth". It symbolizes stability, nurturing, and abundance.

AVANI

WITH POCKET & STORAGE SYSTEMS

Elegant slatted panel doors in 5 cm or 7.5 cm widths, crafted with a solid 22 mm thickness with a textured look. This kitchen environment is thoughtfully divided into two functional zones: a working and entertainment kitchen, offering an exceptional culinary experience with seamless transitions between preparation, cooking, and entertaining.

The worktop and backsplash are fabricated in Pietra Grey marble with a honed finish, showcasing the natural beauty of dark marble veining while ensuring a tactile, matte surface.

Smoked Oak veneer is consistently applied to both the Leggera bar table and the internal carcass of the tall units, providing material continuity and warmth throughout the space.

Working Kitchen

This area is fully equipped for culinary preparation. This section seamlessly integrates a folding door system, allowing the entire kitchen to be clean and uncluttered when closed.

Alongside, an island designed for cooking, equipped with a freestanding stove paired with a hanging cooker hood. The front side of the island also features open shelves to maximize storage space.

Entertainment Kitchen

This side includes symmetrical tall units and an island perfectly suited for casual breakfast and entertaining.

The area is equipped with a wine chiller, additional storage, and a pocket door system that discreetly hides functional storage spaces when not in use.

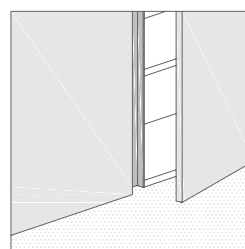

Pullout Pantry Unit with Accessories

The Pullout Pantry Unit with Accessories is a highly functional and space-optimized storage solution, elegantly integrated within the tall unit composition. Designed for maximum accessibility and organization, this system features a unique mechanism where the door swings outward, automatically pulling out a synchronized set of baskets both on the door and within the cabinet interior.

This intelligent motion ensures full visibility and effortless access to the entire pantry contents in a single, fluid movement. The interior structure is enhanced by the Lumine back full-panel lighting system, providing uniform and luxurious illumination across all storage levels. This integrated lighting not only ensures optimal visibility but also highlights the products inside with a warm, sophisticated glow.

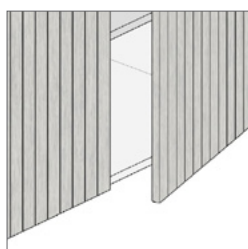

Gola Vertical for Tall Unit

Tall Units

The tall unit doors feature a stunning combination of vertical wood veneer in Smoked Oak, blending flat doors with the distinctive Avani door style, characterized by its elegant 5 cm slated pattern. The internal carcass structure is finished in Charcoal Taupe, providing depth and a luxurious internal finish.

The tall units also incorporate frame glass doors with Reflective Bronze Glass inserts, bringing lightness and sophisticated transparency to the storage elements.

Avani Door

Glass Frame Door for Tall Unit

EILA

The name is of Sanskrit origin, meaning "the Soil," symbolizing nourishment and knowledge.

EILA

POCKET & FOLDING DOOR SYSTEM

Eila – Refined panel doors with a 1.3 cm bevelled frame and integrated finger groove, crafted with a solid 22 mm thickness for an elegant, modern profile.

The unit is divided into three functional sections: Living Room TV Cabinet, Bar Area & Pantry, and Cooking Area. All three sections can be effortlessly hidden behind a smart pocket & folding panel door system,

offering flexibility in how the space is presented. When closed, the room maintains a clean and minimalist look—perfect for open-plan layouts or compact living spaces where clarity and tidiness are essential.

Living Room TV Cabinet

Equipped with open shelving and ambient lighting, this area is designed to accommodate a flat-screen TV and display decorative elements, creating a cozy entertainment zone.

Bar Area

A compact yet stylish bar with glass shelving, wine rack, and display space—ideal for storing glassware and beverages, with a matching green stone backsplash that enhances its sophistication.

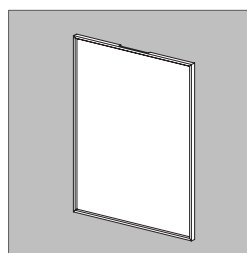

Pantry & Cooking Area

Fully equipped for culinary activities, this space features a modern cooking range, under-counter storage, and open shelving for dishware and appliances, maintaining both functionality & aesthetics.

Pocket System

Pocket system offers the flexibility of an internal that can be fully customized to meet individual needs. Design to maximize space, it delivers a compact yet functional solution while maintaining a clean, seamless look.

Eila Door

UMA

In Sanskrit, Uma means "light," The name is associated with the concepts of peace and tranquility.

UMA

WITH PURA WOODEN BUILT-IN TABLE

Uma - Sleek panel doors with an integrated groove handle, crafted in a solid 22 mm thickness for a clean, temporary look.

This exclusive kitchen features a modern L-shape layout with an integrated island seamlessly connected to a Pura built-in table and dining chair, offering both a practical workspace and an inviting dining area. The cabinet doors are finished in a refined matt lacquer, Gesso color, combined with the sleek Uma profile handles.

The internal carcass structure is finished in Charcoal Tweed, creating a subtle yet elegant contrast to the door fronts. The plinths and door frames are crafted in anodized brushed black, creating a frame, adding a bold, contemporary accent.

Working Kitchen

This is a place where storing, preparing, and cooking flow seamlessly into moments worth savoring. The tall unit conceals a pull-out storage system, a DomuBox keeping every small

appliance neatly at hand, with a lift-up glass frame door mirrors the refined geometry of the wall units. American Walnut veneer wraps the Pura built-in table, carrying a sense

of continuity across the room. Here, conversations linger as effortlessly as the design itself, inviting both work and pause. At its heart, Calacatta Gold marble, honed to perfection, drapes the

worktop and backsplash in soft veining — a timeless canvas for culinary creativity. Organization for small appliances, equipped with a lift-up glass frame door identical to the wall unit design.

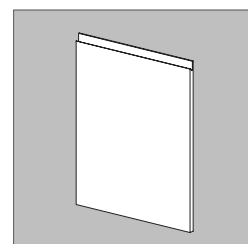

Cutlery Insert

Drawer Inside within the island are thoughtfully equipped with cutlery inserts and dish holders, meticulously crafted from Canaletto Walnut and titanium-painted materials, reflecting the attention to detail throughout the kitchen.

Clean & Matt Looks

The cabinet doors are finished in a refined matt lacquer, Gesso color, combined with the sleek Uma profile handles for the base units, island base units, and tall units.

The internal carcass structure is finished in Charcoal Tweed, creating a subtle yet elegant contrast to the door fronts. The plinths and door frames are crafted in anodized brushed black, adding a bold, contemporary accent.

Uma Door

DomuBox

Comprising 2 separate units. Upper wall unit and lower wall unit: wood lining, available in the finishes in the collection, only vertical grain.

A lift-up aluminium frame with bronze glass door, include servo drive for opening.

A soft-close pull-out tray in wood (worktop pulls out beyond unit, load capacity 40 kg).

2 socket blocks. Available for all models in the collection or with push-pull.

Sign

The SIGN Accessory Rail System transforms the backsplash into a multifunctional workspace, blending advanced design with seamless practicality.

Integrated with warm LED lighting, SIGN provides both illumination and enhanced usability directly within the cooking zone.

Glass Frame Door for Wall Unit

BORA

Derived from Sanskrit, the name Bora embodies the essence of brilliance and a clever mind.

BORA

FREE STANDING KITCHEN

Bora - Minimalist panel doors with a diagonal cut for finger insert, crafted in a solid 22 mm thickness for a sleek, handle-free design

The unit features minimalist panel doors with a pocket and folding door system, creating a clean and uncluttered look. The cabinetry is finished in Smoked

Mahogany wood veneer, while the interior showcases a Rosso Francia marble top table and backsplash for a refined contrast of materials.

Simple & Compact Kitchen

The central island is designed for both functionality and minimalism with an ultra-thin 12 mm worktop in Modern

Elm laminate with a Compact White Core, providing a durable surface for everyday use.

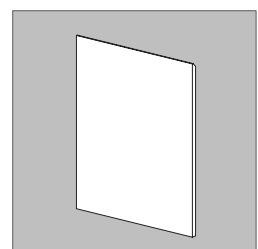

Pocket & Folding

The tall unit section is seamlessly integrated with a pocket and folding door system, allowing the entire kitchen to appear clean and uncluttered when closed.

Behind the doors lies a thoughtful composition of base cabinets and open tall shelving, offering both storage and display functions without compromising the minimalist aesthetic.

Bora Door

MULA

The name Mula, meaning "root" or "foundation," embodies a profound strength and deep-seated determination.

MULA

WITH FOGLIA WOODEN BAR TABLE & OPEN BASE UNIT

Mula combines simplicity, elegance, and functionality. Versatile rectangular panel doors, 22 mm thick, designed for both groove handle systems or external handles, offering maximum flexibility across all finishes in the collection.

I-Shape with integrated Island, featuring Foglia Wooden Bar Table and Open Base Unit — perfect for social cooking and casual dining.

Bar Table Finishing: Worktop & Backsplash Smoked Oak Wood Veneer, presenting a rich, warm texture that invites gathering. Surface: Honed Carrara Marble — a timeless natural stone finish offering both luxury and durability.

Tall Units

Featuring tall units in American Walnut vertical veneer, base units in Champagne metal effect, and an island in

Ash Grey laminate — blending craftsmanship, elegance, and modern minimalism in perfect harmony.

Open Base Unit Finishing American Walnut Wood Veneer, creating a luxurious contrast with natural grains.

Exclusive Trolley

Exclusive Trolley is a revolutionary pull-out trolley unit, designed to optimize kitchen space with elegant practicality. Seamlessly integrated inside the base unit with

a width of 60 cm, it stays perfectly concealed behind the cabinet door when not in use, preserving the clean and minimal aesthetics of your kitchen.

MADIA

MADIA

TALL UNIT

WATER

This tall cabinet designed with both function and refinement in mind. It features a combination of silver rustic oak veneer and steel effect finish, creating a warm yet contemporary aesthetic.

Specifically crafted to organize all tableware related to water — such as teapots, glasses, and coffee utensils — the cabinet includes open shelves and concealed drawers for optimized storage.

One of its features is the built-in water tap with an integrated water filter, allowing for direct consumption of clean water.

Beyond its elegant front-facing storage, the Water cabinet also offers additional hidden compartments at the back, maximizing utility without compromising on style.

MADIA

TALL UNIT

EARTH

This tall cabinet is a refined storage solution tailored for wine enthusiasts. It showcases a rich combination of smoked oak veneer and copper effect finish, bringing warmth and sophistication to any space.

Designed to accommodate all wine-related essentials, this cabinet offers dedicated compartments for wine bottles and wine glasses.

The interior includes horizontal wine racks, glass holders, and display shelves — all thoughtfully arranged for both function and visual appeal.

Beyond its primary storage, the Earth cabinet also features hidden compartments at the back, enhancing its utility while maintaining a sleek, seamless look.

EXCLUSIVE ELEMENTS

EXCLUSIVE TROLLEY

A revolutionary pull-out trolley unit, designed to optimize kitchen space with elegant practicality.

Key Features

Hidden Integration:

Neatly housed inside a standard 60 cm base unit. Simply open the cabinet door and pull the Exclusive Trolley outward when needed.

Space Optimization:

Maximizes storage without compromising the kitchen's visual flow. Keeps glassware, bottles, or dining essentials organized and accessible.

Flexible Functionality:

Ideal for serving, entertaining, or additional storage — easily movable thanks to its high-performance wheels.

Soft Mobility System:

Smooth gliding system ensures effortless pull-out and stable movement during use.

Premium Craftsmanship:

Combining durable materials and refined finishes to match the overall luxury kitchen design.

EXCLUSIVE RAIL SYSTEM

Modular Accessory Rail System with LED Lighting

This accessory Rail System transforms the backsplash into a multifunctional workspace, blending advanced design with seamless practicality.

Key Features

Integrated LED Lighting:

Discreetly embedded along the rail, providing optimal task lighting and enhancing the kitchen's luxurious ambience.

Multi-Functional Accessories:

Expand functionality with a wide selection of add-on accessories: Hooks, Tablet Holder, Shelves, Roll Holder, Glass Holder, Integrated Socket

Modular & Flexible:

The Exclusive Rail System allows full customization with interchangeable vertical and horizontal modules that can slide and reposition easily along the rail to suit the user's needs.

Premium Material:

Crafted entirely from black painted aluminium, ensuring durability, modern aesthetics, and effortless maintenance.

MAXI

Intelligent storage with Lumine back illumination

Maxi is an advanced storage solution that seamlessly integrates elegance and practicality into your kitchen design.

Key Features

Automatic Basket Pull-Out:

As the tall unit's swing door opens, the internal baskets are automatically pulled outward, providing full access to stored items without the need to reach deep into the cabinet.

Multiple Storage Levels:

Equipped with multiple basket levels to accommodate various pantry items, maximizing vertical storage capacity while maintaining easy visibility and reach.

Lumine Back Illumination:

Featuring a fully illuminated Lumine Back Panel, creating a bright, shadow-free environment inside the cabinet. This high-quality integrated lighting not only enhances visibility but adds a luxurious touch to the storage experience.

Seamless Integration:

Designed to blend perfectly into the tall unit with matching door finishes, Maxi maintains the kitchen's clean and elegant aesthetic.

DOMUBOX

A lift-up aluminium frame with bronze glass door, include servo drive for opening. A soft-close pull-out tray in wood (worktop pulls out beyond unit, load capacity 40 kg).

Key Features

Compromising 2 separate units

Upper unit: 2 doors 72cm height, 1 reinforced shelf. Lower unit: 1 lift-up door 54cm height.

1 lift-up aluminium frame with bronze glass door, include servo drive for opening.

1 soft-close pull-out tray in wood (worktop pulls out beyond unit, load capacity 40 kg).

2 sockets block.

Door options:

Matt Aluminium, Frame with bronze glass door, Solid door, Wooden Frame with bronze glass door.

FOGLIA (BAR TABLE)

Organic Shape Bar Table in Veneered

Extended island for preparation also as dining table

Key Features

Finishes:

Many selection of wood veneer and can be any kind of finishing.

Flexible:

Shape can be modify as client preferences.

LEGGERA & PIANA

Snack Bar in Veneered

Function of snack bar is for breakfast or simple meal and also for gathering with family while prepare the food.

Key Features

Placement:

Hanging in front of island.

Flexible:

Modify the length as preferences.

Materials:

Selection of wood veneer materials

PURA

Integrated Dining Table With Island

Pura is an integrated dining table in island, for client that preference dining sitting height.

Key Features

Flexible:

The table height and the shape is tailored to your comfort.

Breakfast Function:

Can also serve as breakfast table or leisurely mornings and cozy gatherings.

Finishes:

Selection of wood veneer materials.

CUTLERY INSERT

Innovative system of interior accessories, creating HORIZONTAL momentum to align with a more contemporary use of the kitchen's equipment.

Key Features

High Quality Materials

Using the finest high-quality materials made from black MDF base, topped with veneer and wood essences.

Finishes:

The material used includes special anti-scratch finishes for safe and long-lasting use.

Flexible:

Our cutlery insert system includes the cutlery version and the pullout version, both characterized by different compositions and measures.

WARDROBE SERIES

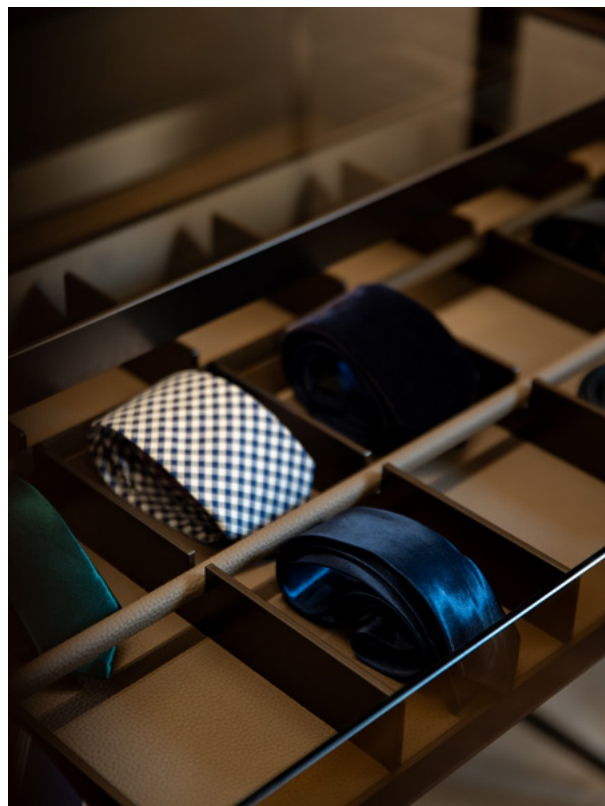

CALA

Drawing from its Sanskrit origin the name "Cala" signifies the mastery of a craft, embodying an elegant virtue where creativity and technical skill unite as art.

CALA

SLIM ALUMINIUM GLASS DOOR

A sleek framed glass door with a 30 mm width and minimalist handle, blending modern elegance with refined transparency. Door frame and glass panel available in all finishes from the collection.

Seamless blend of transparency and structure, this L-shaped wardrobe features Cala glass frame doors with elegant side frames, enhancing visibility while maintaining a clean, minimalist profile.

Ideal for corner installations, the design allows for maximized garment storage and stylish organization with hanging rods, drawers, and ambient lighting integrated inside.

Personalized Island

The island features a glass top surface for jewelry and watch displays, further enhancing utility and elegance.

The island cabinet is a multifunctional unit with dual functions:

Front side: Soft close drawers, a personalized storage solution for accessories, garments, or intimate wear.

Back side: Illuminated open shelving is optimized for displaying bags or fashion items, turning storage into a showcase.

Internal Accessories Selection

A range of frames, pull out
shelf and accessories.
It's thought to organize and
keep in order your clothes and
it is available in different
heights, size and materials.

AVIV

The name Aviv, in its Latin context, is phonetically associated with the root vivere, which signifies "to live," "life," and "vibrancy."

AVIV

BOLD GLASS FRAME WARDROBE

Aviv - An elegant framed glass door with a 40 mm width and an integrated finger groove, offering a seamless handle-free design. Door frame and glass panel available in all finishes from the collection.

The translucent panels subtly reveal the contents inside, offering a sophisticated balance between visibility and privacy.

This wardrobe is perfect for showcasing curated clothing and accessories while maintaining a clean and refined look.

Internal Arrangement

The internal arrangement features frame glass shelves with integrated LED lighting. Drawer units feature a blend of Eco-leather in Visone and Metallic Lacquer in Metal grey colour.

A courtesy tray in a metal frame with Grey transparent glass is positioned above the drawer unit, allowing for display of the internal divider accessories from above.

A dedicated internal divider offers multiple compartments for jewelry and watches, all elegantly wrapped with microfibre in Cocoa.

MEZZO

Derived from the Italian word signifying "middle" the name Mezzo evokes a sense of perfect balance, harmony, and centered moderation, positioned ideally between extremes.

MEZZO

FREE STANDING WARDROBE

The open wardrobe configuration features a back panel that brings a sense of openness while keeping a refined, elegant look.

It can also serve as a partition within your space, defining areas without closing them off.

Built with a sturdy aluminium frame, it stands steady even as a freestanding unit. Integrated leather storage boxes fit neatly within the cabinet, offering concealed storage and adding a consistent visual rhythm.

The internal composition can be customized to suit your needs, ensuring both style and functionality. With its open layout, everything is within easy reach and clearly visible, making it ideal for showcasing a well-curated wardrobe.

Storage Box

Integrated leather storage boxes fit seamlessly within the cabinet spaces, offering stylish concealed storage and enhancing the unit's visual rhythm.

LIBERO

Derived from the Italian word libero, the name directly signifies "free," embodying the concepts of liberty, independence, and being unrestricted.

LIBERO

WALL SYSTEM WITH INTEGRATED DRESSING TABLE

Libero is a complete shelving system designed around a vertical and horizontal modular concept, offering flexibility in layout and function. Its back panels can be customized with personal materials, allowing you to adapt the system to your style

Its shelves and hanging elements can be repositioned to fit different layouts. The vertical structure is fitted with electricity.

Designed for flexibility, convenience, and an organized look, Libero adapts to your space with ease.

Embrace Material Selections

The Libero system combines a range of refined finishes. The back panels are finished in Smoked Eucalyptus veneer.

The shelving is made with a bronze anodic aluminium frame and bronze transparent glass. The front drawers are

upholstered in eco leather vintage in Terracotta, while the drawer structure is finished in metallic lacquer bronze.

The unit is completed with a Red Marquina marble top.

Electrified Rack System

Equipped with an electrified rack system, easy to install, use, and adjust through a pre-mounted connector linked to the power supply.

SIENA

Derived from Siena, a city shaped by time rather than trends, this collection embraces warmth, proportion, and quiet elegance.

SIENA

VERSATILE CLASSIC STYLE DOOR

Siena – A 22mm thick classic-style door and 8mm profile with the most timeless and versatile option. Shown in wood veneer with open-pore lacquer finish and external Eluno handle, perfecting the look.

With a full solid and a glass door option, shown in natural wide ribbed glass, designed for showcasing without compromising privacy.

This wardrobe system features an open unit, with a hanging shelf system and eco leather drawer front in mink. Complemented with wood veneer in silver rustic oak structure.

Internal Arrangement

This internal architecture is defined by the silver rustic oak wood veneer, which forms both the expansive wall shelving and the precision-crafted drawer units.

The cool, tactile grain of the oak provides a contemporary foundation that is elegantly juxtaposed against a book-matched marble backdrop.

The inclusion of customisable metal shoe racks, finished in a deep bronze lacquer that adds a warm, metallic counterpoint to the silver-toned wood.

Every element is illuminated by integrated LED lighting, discreetly hidden to showcase the contrast between the natural wood grain and metal accents.

INIZIO

Derived from the Italian word *inizio*, the name directly signifies "the beginning," the starting point for a composed and organized day.

INIZIO

SOLID DOOR WITH MOSS GREEN GLASS EFFECT WARDROBE

Inizio - A versatile wardrobe door, 22 mm thick, designed for wardrobe with external handle, offering maximum flexibility across all finishes in the collection. Finished with a glass effect in Moss Green, with soft touch and anti-fingerprint, these doors create a clean, calm, minimalist façade when closed.

These doors create a calm, minimalist façade when closed, blending seamlessly with the neutral wall tones. Together, the combination

of solid matte doors and ribbed glass frames creates a striking contrast—merging functionality and aesthetics in a contemporary interior.

Internal Arrangement

Featuring a sleek, handle-less door design accented by the Dento handle in matte black. The carcass finish is composed of black texture melamine, complemented by drawers that combine this finish with a stunning Metallic lacquer in grey metal. Each drawer is completed with an Eski handle in matte black finish. Customisable storage is provided through a metal shoe rack, all finished in a coordinating grey metal colour.

EXCLUSIVE ELEMENTS

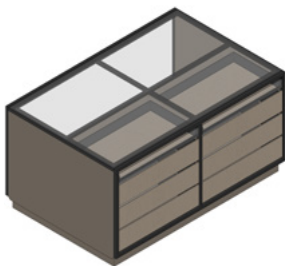

ISLAND

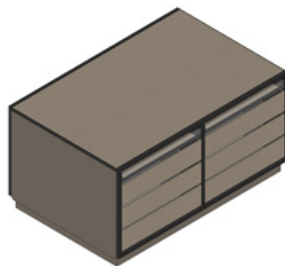

Combining timeless elegance with modern practicality, the island offers spacious drawers and pull-out trays designed to refined, functional storage.

The island's double-sided accessibility ensures flexibility and sophistication, enriching the night area with timeless style and purpose.

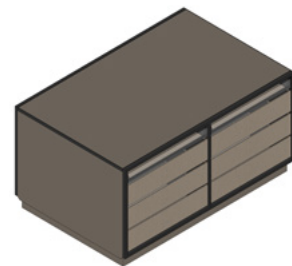

It comes with a choice of elegant top finishes, including glass, leather, or wood, to perfectly match your interior style.

A1-Glass Top

A2-Leather Top

A3-Wood Lacquer Top

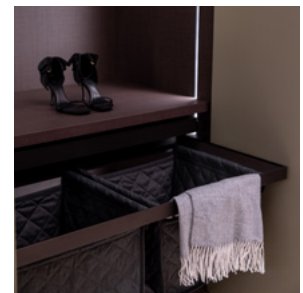

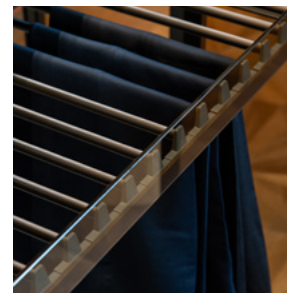

INTERNAL ACCESSORIES

Modular Accessory Rail System with LED Lighting

A range of drawers, pull out shelf, extractable frame and accessories. A practical solution to keep your clothes and stuff organized, offered in a range of heights, sizes, and materials.

You can configure the front drawer in either glass or wood, and the bottom in matching materials — or customize it with accessories such as a shoe rack, trousers rack, skirts rack, or laundry drawer.
